***Election/Restrictions***

Applicant's election of claim group I, claims 1-16 in the papers filed 23-FEB-2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 17-27 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected claim grouping, there being no allowable generic or linking claim. Election was made **without** traverse in the papers filed 23-FEB-2004.

This application is in condition for allowance except for the presence of claims 17-27, which were non-elected without traverse (see above). **Accordingly, claims 17-27 have been cancelled.**

***Information Disclosure Statement***

The information disclosure statements filed 22-MAR-2002 and 24-FEB-2003 complies with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609. Accordingly, it has been placed in the application file and the information referred to therein has been considered as to the merits.

***Allowable Subject Matter***

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a tool roll comprising a structure of a wound wire, having cavities therein, wherein the wound wire undulates across the roll (eg. see instant Fig. 13). The undulation is substantially claimed by the last limitation (indentation) of claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
